You can opt to wager anything from a small amount to larger amounts, and the free spins will be awarded according to the sum of your deposit. Gameplay The additional symbols and the features of this online slot game are very useful for those who expect to win the handsomely prizes. Let's begin with the Chief symbol. It serves as the Wild symbol in this slot. It shows up on the second and fourth reels only and can replace all symbols except the Firehawk symbol. The win combinations containing the Chief symbol on the second reel bring you doubled prizes. If the Chief shows up on the fourth reel and completes the win combination, the prize for it will be quadrupled. Once the Chief symbols appear on the second and fourth reels simultaneously and become a part of the win combination, this winnings will be multiplied by eight! Once three or more Firehawk symbols appear scattered on the game screen you will be transferred to another screen where you have the possibility to select how much free games you will play and how big is a multiplier, which will be applied to your forthcoming winnings. After any game round, you can launch the additional gamble game if you need to increase your won prize. The deck of cards takes a place of the reels and you need to choose the color of the last card or its suit. The color doubles your wins and the suit quadruples them if your gamble is correct. Once you gambled on the wrong card, your credits for the last spin round will be gone.
