It has many things in common with the popular fruit machine style games: the simple single payline structure, along with the randomly awarded nudge and hold features. These bonus features can allow players to hold one reel while respinning, or to "nudge" a reel one spot in order to move a winning symbol onto the win line to complete a winning combination. The goal of the game is to finish as close to 9 as possible, and the player gets to bet on which hand they believe will achieve that, with the wager being placed before the deal.
