There have been dozens of games in the Monopoly series since it launched in the late 1990s, but the game element players always love best is the trip around the Monopoly game board. Virtual dice roll onscreen to move you around to board to collect properties for bonuses. The more expensive the property, the bigger the bonus. When the dice take you to Boardwalk, you'll love the big bump on the credit meter. The more common terms are soft hand and hard hand which relate to the sum of your cards. A soft hand totals to 11 or less while a hard hand is a hand without an ace and is worth 12 or more, that can be busted. There are other less common terms that are used in different blackjack variations, ever heard of the Five Card Charlie hand? This happens when you draw five cards without going over 21. When you place another bet next to your existing bet, it is called a double. You can use VISA and MasterCard powered debit/credit cards, which are

the most common and convenient options. Planet 7 Casino also accepts Bitcoin, which is no doubt the safest form of online transaction. As it is obvious from the name, 5 reel slots have 5 vertical rows of game symbols that spin and create winning combinations. The number of these combinations is the first thing that make 5 reel slots stand out as the increased number of reels make it possible to have more possible paylines and thus make these slots more lucrative. The increased number of reels also means that there can be more game symbols and more advanced features can be used. While in classic slots we only had wild and scatter symbols (and sometimes we didn't have any special symbols at all), free slot games with 5 reels made it possible to create different variations of wild symbols such as stacked or shifting wilds and also use more bonus rounds and mini-games. Another hallmark of 5 reel games is how they look. Modern technologies give more space for graphic and sound effects and that's why most of the 5 reel games are video slots or 3D slots. While the classic 3 reel games are usually so-called "fruit slots" where the only game symbols are fruits and lucky 7's, the 5 reel

slots have more variety in themes. While playing free 5 reel slots online, you can travel to the Ancient Egypt or Asia, meet wild animals or walk around the creepy haunted house with just a few clicks. Animated symbols and various bonus games make video slots look more like full-fledged video games. They are cool to play when you are an experienced gambler but might be a little bit complicated if it's your first time playing casino games. So if you are a newbie, you'd better start with simple 5 reel games with no more than 20 paylines and then slowly move to more sophisticated games with advanced features and bonuses.
