The Flash video slot has the 5 x 4 configuration. You can enable up to 50 paylines. The line bet can be chosen from coin values of 0.02 to 4.00, with one coin wagered per payline. If you do not enable the Bonus Bet, this leads to a maximum total bet per spin of 200.00 credits. The Bonus Bet feature changes the configuration slightly. It compulsorily activates all paylines and adds 10 coins to the stake. Therefore you play with 60 coins wagered, which works out to 240.00 credits at maximum coin value. The advantage of this is that the Rogues Feature becomes available to you. However to activate it you will need to get the required combination of symbols on the reels. But without the Bonus Bet enabled this feature will not trigger even if the required combination of symbols appears on the reels. The standard NYX Interactive Auto Play feature is available. and interesting casino. i have not made a deposit there but it seems quite enjoyable. especially the games seem nice. there are a lot of games to choose and the deposit and withdrawal options seem fair. Perhaps the best way to start is by learning the probability of the hand dealt, combined

with the probability of busting when drawing on that hand. Being dealt a 2-16 is the most likely combination, and those are generally considered hands where you have to make a decision on whether to hit or stand. Anything over 16 should be an automatic stand, regardless of what the dealer is showing. Deciding whether to hit or stand is then based upon what the dealer is showing, with the understanding that a 5 or a 6 holds the biggest % chance of him busting, and the % dropping rapidly on either side of the 5 and 6.
