To complete the betting round player has to obtain 1 unit as net profit. After this they could start the next sequence. After the win player will just double their bet and continue increasing bet size until they get at least one unit of net profit. Here you can see the list of the slots with the highest limits. Just imagine, there is the high stakes slot with \$22000 per spin! It will take like 15 minutes for the experienced gambler to spend a million in this slot. Of course, not everyone can play the games with the bets like this and not everyone has to.
