Maximum Bets and High Denomination Machines = Increased Jackpot Chance Modern pokies, especially games with progressive jackpots are designed to reward gamblers who spend more and bet the maximum than those betting one credit at a time. The higher the maximum bet on any one machine, the larger the jackpot. Also, higher denomination machines (one dollar slots as opposed to 10 cent slots) have higher payout percentages, so if it fits your bankroll, take advantage of the 'bet maximum' button and play higher denomination pokies to increase your chances of winning big. The player wins if he beats the dealer with a hand of 21 points or fewer, meaning the dealer's hand is worth less or the dealer busts (gets more than 21 points). If he wins the side bet (predicts whether his first 2 cards will be the same suit), he will receive an additional payout of 5:2 for any 2 same suit cards, 25:1 for an ace and a jack of the same suit, and 50:1 for an ace and a jack of spades. Those payouts sound small until you consider the impact of multipliers and other special payouts, which are probably the rewards most pokies players are looking for anyway.
