Speaking of playing heads-up, I remember when I used to play heads-up tournaments against a colleague. I was the better poker player but he was very intelligent. Anyway, when the blind got high I always started to go all-in every time I had the button and he would only call me with a very narrow range of hands. If we started that level with even stacks he would usually let me steal his blinds until I had a 3/1 advantage and then he would call me, usually as a favourite. But even when he won, the pattern would just repeat itself and most of the time I won the final hand as an underdog and he thought I was the luckiest player in the world. He never understood the

strategy and I thought it was hilarious. Free poker win real money no deposit

And what better way to say goodbye to the dubious year that was 2016 by throwing a pimped out New Year's Eve (NYE) party and winning big at the same time! It's kind of natural that a casino should offer mobile gambling for the members nowadays. The main mobile version of William Hill is a no download mobile app, which you can open via your phone's browser. You will find more than a hundred different games, mostly granting pokies to play – and the big shots, the progressive pokies are offered on mobile too. There is a downloadable app for iPhone and iPad users; they have to look around on iTunes. The fact that it's a mobile browser-based casino makes it compatible with most of the phones and tablets released in the last few years. Now, it's important to understand that you can't really control the online pokies game. Unlike blackjack or poker, there isn't a great deal of strategy at online pokies. There is no playing strategy that will make sure that you win every time. Often times, you'll win at online pokies for a few turns, and then will start to lose. One of the great tips to win at pokies is to stop while you are ahead. If you see that you've won a bit, take a break and then come back later to play some more. This will help to keep you from suddenly losing everything that you've tried to accumulate. slot machine hack android
